EDMONTON, ALBERTA, MONDAY, APRIL 19TH, 1905.

No. 83

## EDMONTON APPRECIATES THE HONOR.

Gratification of the Citizens over the New Appointment.

Feeling strong among local Conservatives that no opposition should be offered to Mr. Oliver's election.

Ottawa, April 8.—Frank Oliver, M. P. for Edmonton, was sworn in as Minister of the Interior this morning. Mr. Oliver leaves at once for the West to stand for re-election. Nomination is expected to take place on April 25, and election a week later. Mr. Oliver was sworn in at Rideau Hall at noon today.

### EDMONTON PEOPLE PLEASED,

Early on Saturday afternoon the appointment of the member for Edmonton to fill the vacancy in the Dominion Cabinet was placarded at the Bulletin office, and soon became the centre of attraction for men of all political stripes and the general topic of discussion on the streets. The news may be fairly said to have come as a genuine surprise to the public generally, and to many well-informed in political matters.

Since the announcement of Mr. Oliver's acceptance of the revised school clauses the impression has been general that he might again enter the Cabinet and resume the duties of the portfolio of the Interior. Reports have been freely circulated throughout the West for many days to the effect that Walter Scott, M. P. for Regina, was the probable successor to Mr. Oliver in the event of his not returning to office. The appointment of Mr. Oliver was thus announced without any preparatory prognostication.

The news was not the less pleasing to Edmonton people because it was unexpected. The supporters of the sitting member were naturally and unanimously jubilant, but the gratification was by no means confined to them and may in fairness be said to have been shared by men of all classes and parties. The citizens were pleased that one of their number had climbed to the upper rounds of the ladder and the citizens generally, disregarding party affiliations, rejoiced at the distinction which had been conferred on the city and district by the selection of Edmonton's member for the Cabinet position, the duties and policy of which bear most directly and powerfully on the future of the Western country. It was and is felt to be a fitting thing and one for congratulation that the first Minister of the Federal Government from the Ter-

## WALL PAPER

We are out for a big trade this season. We'll give the Wall Paper.

The prices are the lowest ever quoted in this town on new, fresh goods of this quality: 15c. to 82.00 per double roll.

It doesn't make any difference to us whether you have a whole house or one room to paper—we want to sell you the Wall Paper for it.

This year's patterns are the finest we have ever seen. Come in and look at them just as soon as you can. We will be glad to match up the walls, borders and ceilings for you, showing you just how the paper will look on the wall.

MONDAY, APRIL 10, 1905

GRAND TRUNK PACIFIC  
RAILWAY.

(Railway &amp; Shipping World.)

Survey parties are in the field over the whole country between Moncton, N.B., and Winnipeg, Man., described as the Eastern Division of the Transcontinental Railway. The projected route is divided into six districts, the headquarters and division engineers in charge being:—Fredericton, G. C. Dunn; Quebec, A. E. Doucet; Ottawa, A. N. Molesworth; New Liskeard, Ont., appointment not made; Nepean, Ont., C. F. Perry (acting); Winnipeg, Man., Major Hodgins. It is not likely that any tenders will be asked for until the fall so that work may be gone on with during the winter's construction, according to Sec. 10, Chap. 24, 1904, must be commenced simultaneously at Moncton, N.B.; Quebec; at the point of junction of the eastern Division with the branch southward to a point at or near either North Bay or Nipissing, Ont., and at Winnipeg, and shall be carried on westerly from Moncton, eastward and westward from Quebec, and from the point of junction with the North Bay branch, and eastward from Winnipeg, in order that the whole line between Moncton and Winnipeg shall be completed as nearly as practicable at the same time. The specifications for construction are being prepared a considerable portion of the work being completed. H. A. Wood, Assistant Chief Engineer, G. T. P. Ry., is acting with the commissioner's engineers in arranging the specifications, etc., in conformity with the provisions of section seven of the agreement between the Government and the G. T. P. Ry., confirmed by Chap. 71 of the Statutes of 1903. This section sets forth that in order to protect the interests of the lessees of the Eastern Division, it is agreed that the specifications be submitted to, and approved by, the G. T. P. Ry., before the commencement of work, and that the work shall be done according to the specifications, and shall be subject to the supervision and inspection of the chief engineer appointed by the Government and the chief engineer of the company. In the event of differences between these engineers an arbitrator is to be chosen by them, or appointed by the Chief Justice of the Supreme Court, if the engineers cannot agree on one.

In connection with the surveys upon the eastern section of the Grand Trunk Pacific Ry. between Moncton, N.B., and Winnipeg, Man., which is to be constructed by the Transcontinental Railway Commissioners, the annual report of the Department of Public Works contains the following paragraph:—

"The despatching of so many engineering parties at the same time as the surveying work of the Transcontinental railway was being commenced has given employment to a large number of Canadian engineers. It has been found on the formation of parties that the engineering profession of Canada was fully equal to the demand made upon it, for the professional equipment which is required for the exploration and surveys necessitated by the extensive surveys for these two great works. All the engineering staff has been supplied by Canadian intelligence, and professional training, and there is no doubt that the profession in Canada is fully able to render a good account of itself in the performance of the arduous duties connected with the examinations now under way."

Answering questions in the House of Commons the Minister of Railways stated recently that no accurate information was available as to the progress of surveys. The Commission was directed to present an annual report, and, although interim reports had probably been sent in, no final reports had been presented to the department. The survey parties on the whole of the route from Moncton to Winnipeg are in the field. Reports of the engineers between Quebec and Moncton state that a route has been found round the shoulder of Maine giving a grade of 10-10 of 1 per cent going east, and 6-6 of 1 per cent going west.

A return made to the House of Commons shows that there are thirty persons on the staff of the Transcontinental Railway Commission, exclusive of the Commissioners. Their salaries are: H. A. Lumsden, \$500 a month; M. J. Butler, \$375; A. W. H. Sampson, \$125; C. J. Jones, \$1; Fred Dillon, \$82; A. L. Ogilvie, \$150; R. L. Landry, \$72; Alice Jones, \$25; R. M. J. McGill, \$125; John Cleman, \$100; R. H. Lang, \$52; H. A. Collins, \$82; John Moghbow, \$75; R. Remond, \$72; D. Lefebvre, \$22; P. E. Ryan, \$208; R. F. Omoeke, \$159; J. H. Roy, \$100; O. P. Schreiber, \$80; F. McCourt, \$70; P. Wright, \$30; F. W. White, \$100; G. O'Reilly, fifteen a week; A. T. Gow, \$150, a month; W. R. Saults, \$75; H. Lagimodiere, \$60; A. Beaudry, \$70; G. Heidmann, \$80; H.

Laroque, \$70; J. O'Malley, \$50. No allowances are made except for actual travelling expenses. The engineers in charge of the parties are appointed by the Board upon the recommendation of the Chief Engineer. The engineering parties were made up in the first place by the Board on the recommendation of the Chief, and district engineers, and changes in same are made upon the recommendation of the chief of parties and the district engineers, and approved of by the chief engineer. The engineers in charge of parties report to the district engineers, who report to the chief engineer, and he reports to the Board. Interim reports are received from time to time from the parties in the field and district engineers.

The plans submitted to the Department of Railways by the G. T. P. Ry. provide for large terminals at both Port Arthur and Fort William, Ont., and on the Pacific coast. These plans, it has been explained, were deposited to secure available sites from which the final sites would be selected. The Minister of Railways, replying to a question in the House of Commons recently, stated that certain plans had been deposited, but they were not available. The surveys are being prosecuted from Winnipeg to the coast by a large number of parties, and a report from A. S. Goring, who has been in the mountain since August, 1904, states that nine passes are available for a line in northern B. C. These are Yellowhead, Peace River, Pine River, Smoky and North Smoky, Porcupine, two in Red Deer district, and the Wapiti pass. F. M. Morse, Vice president and general manager, and other officials are expected to return to Montreal, April 1, from a trip to Victoria and intermediate points. At Port Arthur he stated that construction would be commenced in the spring at Winnipeg, as well as on the line north from Lake Superior. The money for the construction of the line, he said, had been raised in a lump sum, so that construction would not be delayed no matter what economic conditions the markets may have in store. So far as the Lake terminals are concerned, the Government has approved of the expropriation of 1,600 acres of the Indian Reserve at Fort William, Ont., for this purpose, but has not taken any action in regard to the proposed terminal at Port Arthur.

The visit of the vice president to the west was largely for the purpose of carrying on negotiations with the B. C. Government with a view of obtaining a subsidy in aid of the construction of 480 miles of line to be constructed in that province. Reports state that the Provincial Government was asked to set aside approximately 7,000,000 acres of land as a subsidy, and that the proposition is not viewed with much favor by the Cabinet. Speaking at Victoria March 70, before leaving for the east, Mr. Morse stated that it had been decided to construct the line from east to west as being the more economical plan. Should a start be made on the Pacific coast the cost would be much greater and the company could not change its policy without assistance from the provincial Government either in land or cash. The financial arrangements for the construction of the line from Winnipeg to the Rocky Mountains had been completed, and it was important that the company should arrange for the balance of the line while the money market was in its present condition. No portion of the road would be suspended while others were being constructed; every section must bring its returns as soon as ready for traffic. The line would have connection with Vancouver Island and the the southern portion of the province.

APPRENTICES WANTED.

## Ross Bros. Ltd

## TIME TO GET BUSY.

House Cleaning Time Will  
Soon Be Here.

You will want Paint, Varnish, Furniture Polish, Wall Colors and Brushes.

Ross Bros., Limited, have the best assortment of these Goods to be found in any store west of Winnipeg, and you will be surprised to find how simple it is to apply these goods if properly selected

ROSS BROS. buy direct from the Manufacturers, and their long experience in the paint business enables them to choose what is best in material, and simplest in application.

There are so many times that a lady wants to do a little touching up in a room or on a piece of furniture, but does not want to go to the trouble, or expense of engaging a painter. Any man, woman, or child can do a good job with our ready mixed paints, and if you need any directions it is no trouble for Ross Bros. to give all the information necessary. New and fresh paints arriving almost daily.

THEY SELL AN IMMENSE QUANTITY in a season and the continual turnover always WARRANTS FRESH GOODS, which is a very ESSENTIAL THING in good READY MIXED PAINTS AND VARNISHES. Many smaller concerns will say their goods are just as good and fresh, but use your own judgment in this, and common sense will show you the difference.

To those who expect to want wire fence this season, Ross Bros. would like to call attention to the "LAMB WOVEN WIRE FENCE."

Many people will think that one wire fence is as good as another, but there are many reasons why some Woven Fences are better than others. The LAMB FENCE has a lock or fastening peculiarly its own. It is made from the best Galvanized Carbon Wire. Provision is made for the contraction and expansion, and it does not sag or buckle which is so annoying in a great many fences. The wires are heavy and strong, and are made to withstand the pressure or attacks of the largest animals, and any man can stretch it into place. It is kept in 20, 30 and 40 rod rolls, in heights of 24 inches, 30 inches and 32 inches, sold in Edmonton only by

## Ross Bros. Ltd

**The Immigration Rush.**

The rush of the season's immigration from the United States to Manitoba, and the North West Territories is now on. It has opened earlier this season than usual and the returns for the month of March are unprecedented, over doubling in volume the best records of any former year. Not only is this the case in regard to the number of individual land seekers carried into this country by the trains from the south over the Soo line, the N.P.R. and the G.N.R., but also in the number of actual settlers, with the quantity of live stock, farming machinery and implements, household goods, etc., transported over these railroads and making entry into Canada at the frontier outposts of the Canadian customs along the international boundary line. They are moving from the States in numbers that are beyond all previous estimates for this season of the year. Almost every state in the union is sending its contingent to the fertile plains and valleys of Manitoba and the great North West agricultural lands. Sturdy settlers from Illinois, Iowa, Ohio and Michigan are now vying with the Dakotas, Minnesota, Kansas, Nebraska, Colorado and Montana in seeking homes for the future in Canadian farms for the purpose of raising grain and stock. Information from friends and neighbors who have preceded them in seeking new homes in Manitoba, and the North West and of experienced men whom they relied and farmers like themselves have tendered their verdict as stored away in the richest farming lands now open for settlement on the continent of America. Lands far more productive in yield than the high priced land lands had parted with and within the reach of all, even those with limited means, with the knowledge that kindred will be willing and able to cultivate the land which in a few years would return to them a competence and an independent living for themselves and families. This information has been received and acted upon and the interest displayed in Manitoba and the North West by the states mentioned is due in a great measure to the reliable statements made to them by personal friends on the wonderful productivity of the lands in Manitoba and the North West Territories.

The following comparative statement shows what a remarkable increase there is in the immigration from the United States to the Canadian North West.

During the month of March, 1904, there cleared the Canadian customs at the nine frontier outposts of Crystal City, Deloraine, Emerson, Gretin, Killarney, Melita, Morden, Mowbray and Sprague: Adult males, 104; adult females, 82; children, 266; total 372; stock: horses, 443; cattle, 206; sheep 23; swine, 69; settlers' effects, car lots 108; total value \$68,541.

At Gretin alone for the month of March, 1905, there have cleared the customs: Adult males, 135; adult females, 56; children, 140; total, 331; Stock: horses, 583; cattle 219; sheep 23; swine, 69; settler's effects, car lots 116, at a total value of \$68,541, an increase in car lots of eight cars, and in value \$28,304 over the nine ports of entry for the preceding year.

A comparative statement with the port of L.M. also reveals the same fact, though in a lesser degree. Emerson records March, 1905: Adult males 88, females 41; children, 97; total 226; stock, horses, 65; cattle 186; sheep 8; swine 10; total number of car lots, 87, at a value for settlers' effects of \$75,561.

**Fire Cracker Accident.**

At Gretin alone: At ten o'clock on Saturday night a terrible explosion started the people in all parts of the city, but especially those on Main street. Percy Simmington, of the city bakery and grocery store, discovered a jumbo fire cracker while at work in the basement. The first of July spirit asserted itself and Percy singly could not overcome the temptation to set it off. He went to the upstairs landing, and, holding it in his left hand, he applied the match with his right. The monster cracker exploded while he still held it, and blew the first two right hand fingers completely off, and broke his thumb and third finger. The explosion was so terrific that it shook the building on the corner, and the alarm was general. Percy was found on the platform in a dazed condition. He was at once taken to Turnbull & McCullough's office where the injured hand was dressed by Dr. McCullough. The hand was terribly shattered, but it is believed that the thumb and two fingers will be saved. Mr. Simmington informs us that hundreds of these firecrackers were sold last year, but he never knew of one made such an explosion as this one made, and he believed that it was made with some explosive more powerful than gunpowder. The shell was found across the street the following morning, and one of the fingers blown off was found on the window sill of Jas Smith's office on the third flat of the Union Bank Block on the opposite side of the street from where the explosion occurred.

**It Nourishes Infants.**

## SHOOTING AFFRAY

## OCCURRED NEAR CALMAR.

Settler West of Leduc sent up for trial on charge of shooting at a Neighbor.

On Monday, April 3rd, Mr. James Burns of Calmar, before Magistrates Telford & Holden at Leduc laid information against Mr. Henry Clarke of the same place, and on Thursday Mr. Clarke was arrested on the following charge:—

That Henry Clarke did wilfully and with malicious intent, shoot at the informant, James Burns."

The case did not come off until the 11th inst. Mr. Simonds defended the plaintiff, with Messrs. Telford and Holden presiding. Owing to the examination of plaintiff, defendant and witnesses, the hearing took up the time until about 12 o'clock, when the magistrates committed the prisoner for trial to the Supreme Court at Edmonton. Bail was accepted next morning for the prisoner, to the amount of \$2100, in sureties of \$700 cash between Messrs. Aicher, O'Neill and Purvis.

The following was the evidence given:

J. Burns, plaintiff.—On April 1 I finished drawing lumber, after which I started to draw slabs from saw mill yard close by, but west of Mr. Clarke's house. Drew one load that forenoon, and one of Mr. Clarke's boys aged 11 went with me to the slab pile. After arriving there, he asked me what to do, and I told him to pull out some slabs from the wagon, which we did, and I proceeded to load on the north side of the wagon. After I had completed my load, Mr. Clarke's other boy, aged about 13 years and Mr. McDonald's boy aged 16 years, came along and asked me to pull out of the way to let them drive in, which I did. I drove my team on the saw-dust pile. While Mr. Clarke's boy was driving past my wagon the north hind wheel of his wagon caught the south hind wheel of mine, which tilted the wagon, throwing the boy to the ground. The right wheel of the wagon passed over his left ankle I think. I asked him if he was hurt, he replied "No; not very bad." I then picked up an edging and threw it on my load, but the smallest Clarke boy threw it off, saying, "This belongs to us." He then got off my wagon and threw a similar edging on my load. I then put my chains loosely on load and left for home, the boy riding with me. After I had got home and had dinner, I hitched my team up and went for another load. The boy returned on a load of hick with his brother who is 16. When I reached Mr. Clarke's yard there were three teams there already loaded with the saw machine. After they started, I talked with the oldest Clarke boy for a while. I then proceeded and loaded up again. Messrs. McDonald and Champion were there, and when near to finish of load Mr. Dunn arrived. I then had a talk or a few minutes with these gentlemen. In starting off Mr. McDonald took the lead, I next, and Mr. Dunn last. In driving through Mr. Clarke's yard, we all stopped, after which Mr. McDonald drove away. Mr. Clarke then approached me and said, "I don't want you to take any more slabs off my slab pile (or words to that effect.) I said, "Mr. Clarke, you don't mean it?" He said "Yes; A mean it." I said, "Mr. Clarke, you are wrong; I did not take any slabs from off your site." He said, "I have been told you did." I then said, "You have been told lies" and after some more words, I said, "Mr. Clarke, you are wrong if you believe our boys as they have told lies." Mr. Clarke replied "I will believe the boys and not you." I said, "Mr. Clarke all right." I then turned around and asked Mr. and Mrs. Clarke and Mr. Dunn if I had taken any slabs from off Mr. Clarke's pile. He shook his head meaning "No." I then said, "Mr. Clarke, he should be believed and not the rest, as he was present and saw me load the slabs. After this Mr. Clarke and myself had other words, in which he accused me of having tight fingers; he said, "If I ever catch you doing the same again I will kick you off the place." I said "You certainly own the place and have more right to it than I. I then asked when the boys would be home, and either Mr. or Mrs. Clarke replied that they did not know. I then drove home. After supper I saddled my mare and started for Mr. Clarke's place via Mr. McDonald's. Arriving there, I asked Mr. McDonald's boy if he saw me take any slabs from off Mr. Clarke's pile or if he had told Mr. Clarke I had taken any. He said that if the boys said I took any they lied. I then proceeded to Mr. Clarke's place and, arriving there, I asked if Mr. Clarke was there. Mrs. Clark replied "No," and said that he took his rifle and went in search of some missing cattle. After further conversation with Mrs. Clarke, she said, "You can not settle it with me; you will have to settle with Mr. Clarke." I then asked her what time Mr. Clarke would be home. She replied, "I don't know." I then said "I will ride over and meet Mr. Clarke." After going some distance west of Mr. Clarke's house on the road, I saw Mr. Clarke coming towards me, carrying a rifle in his hand. After crossing a little hollow in the road and landing on higher ground, I at once saw a cloud of smoke. Immediately the mare stopped and I cried, "Don't shoot me." I then dismounted to the right side of the beast, throwing the reins on her neck; she came towards me and

Your clothes will last twice as long and look better, too, if washed only with

## Sunlight Soap

It washes coarse things easiest because it is a powerful cleanser, and is best for fine things because it is perfectly pure and will not injure them. Equally good with hard or soft water. No scrubbing, no boiling.

Try Sunlight.

You may have your money back if you are not satisfied.

sighed. I then saw a spurt of blood coming from a wound in the right shoulder. I then said, "Mr. Clarke, you have shot my mare, you might just as well have shot me." He replied "I thought it was a bear." After some other words, as to the likelihood of the mare living, Mr. Clarke said, "You had better lead her up to the house, and I will go and see your father." I did so, and after arranging with Mr. Clarke with the mare, his closest son was there with a horse already saddled, which Mr. Clarke took; he journeyed with a piece of the road and said, "I will go ahead to your place." He went on and I followed, leading my mare. After reaching my father's house, he came back and met me about half a mile from my home. I asked him what my father said. He said that he did not say much. We then went to my home, and I put the mare in the stable. Mr. Clarke said, "If the mare is alive in the morning, I will get a veterinary surgeon." I then left the stable twice, but the mare died at 12 o'clock. This was Saturday. I laid the information on Monday. The following morning we opened

the beast, Mr. Jas. Dunn and myself. We found that the bullet went through the right lung; it was a rifle ball and made a hole in the stomach and lung the size of a 50c piece. On Monday morning I waited until 9 o'clock to see if Mr. Clarke would come along and make settlement. I then proceeded to Leduc and laid information before Messrs. Telford & Holden, Justices of the Peace.

Questions by council for defence—Mr. Burns what time did shooting occur answer, between 7.00 and 7.15 in the evening; what distance? 150 paces; time of your support? 5 o'clock; council, explain view and road, answer, clear view, but road is not a legal right way, but has been travelled on for nine years. Whose property were you on? I think I was on Mr. Clarke's property, but Mr. Clark was on Mr. Lamberts place. My reason for so thinking was on account of a certain slough which the line is supposed to run through. Did you ever hear anything against Mr. Clarke? I have heard of Mr. Clarke's reputation is good; I have always been friends with him until now, he has never opposed me crossing his place, and has always been a good neighbor.

EDMONTON APPRECIATES THE HONOR.

Continued from page one

LATE CONSERVATIVE CANDIDATE.

Mr. R. Secord, ex-M.L.A., Conservative candidate in the Dominion general elections, has also expressed the opinion that no rival candidate should be put in the field.

M. O. BISHOPIC

Mr. O. Bishopic, one of the most prominent workers of the local Conservatives said this morning very emphatically that no opposition would be offered Mr. Oliver, and that the Conservatives were as proud of the honor done Edmonton as their opponents.

ELECTION DATES.

When a private member of Parliament accepts a position in the Cabinet, he must appeal again to his constituents for re-election. Mr. Oliver is now on route to Edmonton for this purpose and is expected to arrive on Wednesday evening. Nominations have been fixed for April 25, and polling May 2nd.

OLIVER MEETINGS.

Frank Oliver, Minister of Interior, will address public meetings at Fort Saskatchewan on Thursday night next at eight o'clock, and at St. Albert on Saturday evening at the same hour.

YOUNG LIBERALS MEET TO-NIGHT.

The annual meeting of the Young Men's Liberal Association will be held in Gariepy Hall tonight, Monday evening at 8 o'clock sharp, for the election of officers and for arranging for the reception to Hon. Frank Oliver, Minister of Interior.

RUSSIAN ARMADA

SEEN OFF SINGAPORE

Ekrestvensky reported to have evaded the Japanese scout ships and passed the straits.

London, April 10th.—Fifty-one Russian warships under Admiral Rojestvensky's command passed Singapore, straits of Malacca today, thus deceiving Togo's big fleet of scouts which were patrolling all the other straits. He did this by deceiving his own Admiralty who are as much surprised as the Japanese at his appearance off Singapore. In the next ten days the greatest sea fight since Trafalgar is expected to ensue. The Vladivostok squadron is ordered to attack Togo's rear and the invincible Jap finds himself between two fires. This may influence Japan to demand more lenient peace terms as the result of such a tremendous battle in which over 100 ships will be in action either victory or defeat would be immensely costly to both life and property.

An indecisive battle took place Friday in Manchuria. About 50 Russians were killed. No report is given of Japanese losses.

Minnesota Mayor Shot  
Bulletin Special.

Rainy River, Ont., April 10th.—Major Cannon of Beaudette a town in Minnesota, just across the border, has been shot and killed. He warned the lawless element to leave the town. They also gave him warning and on refusing to leave they held a mass meeting and decided on his death, which was carried out with awful promptness while he sat at the door of his hotel. Help has been asked for from neighboring towns.

Convention at Morinville  
Bulletin Special.

Morinville, April 8.—A delegation of the local electors of each parish of the District of St. Albert, will meet on April 18 at Morinville, at 2 o'clock to regulate a Liberal convention for the choice of a candidate for the next provincial election.

A report is being circulated among the electors that there will be a motion at the convention to the effect that no candidate but men belonging to this district should be balloted for at the convention.

A Taxable Move.

Bulletin Special.

Winnipeg, April 10.—The feeling here over Mr. Oliver's appointment is that it is a fine tactical move on the part of the Government. It is thought it will prove difficult to even oppose Mr. Oliver and impossible to defeat him with his large majority. Aside from the political aspect, the move is regarded with much favor by both sides.

The feeling throughout Alberta is said to be growing in hostility to the educational clauses, especially since the Bannister revelations and opponents of separate schools here assert with vigor that Mr. Oliver should be opposed merely as a protest against the alleged action of Sir Wilfrid on the question. It is doubtful, however, that opposition will be met by the new Minister of the Interior.

## Eaten by Wolves

The Montreal Police report contains a tragic "Babes in the Wood" story. It gives the details of the abandonment in the wilds of the north-west, near Lake Athabasca, of two young Indian children, who, deserted and unprotected, were eaten alive by wolves. A young Indian girl of fifteen, also abandoned, narrowly escaped death by starvation. The story, taken from the diary of Sergeant Field, in command of the police detachment at Fort Chipewyan, is as follows:—"A Half-breed arrived here from Fond-du-lac, on Lake Athabasca, and reported that an Indian Paul Izo Azie, living at Black Lake near Fond-du-lac had deserted his adopted children in the bush some time during last September. The particulars of the case are:—This Indian, Paul Izo Azie, was camped on an island in Black Lake, where he intended fishing and hunting during the fall and winter. One day he sighted four or five canoes, with a number of men on board, coming towards his camp. He fired two shots as the Indians, as is customary amongst Indians, as a mark of friendliness. They did not reply or take any notice of his shooting, but paddled off in another direction and landed on the main shore of the lake.

That man, being very superstitious as most Indians are, concluded that these were bad people and intended killing him and all his family. He became frightened so he got his wife, sister and the two little children and himself into his canoe and paddled ashore, leaving his camping outfit and all his belongings behind him. When he landed on shore he started off on foot for Fond-du-lac, followed by his wife and sister, leaving the two little children behind without food or protection, one little boy and the other a little girl, aged two and three years respectively. It being an eight days trip, or about 130 or 140 miles from his camp to Fond-du-lac, his sister, a young girl about fifteen years old, got fatigued after the first or second day's travel, he left her behind also on the road without food or protection.

This poor girl wandered about the woods for several days in a dreadful state of starvation until she was picked up by some Indians who were camped in that direction. She told the other story, how her brother had deserted these two little children on the lake shore. Some of these Indians started back to search for the children. When they got there they found the camp just as the Indian had left it, nothing taken or stolen. They took the two children along the shore and where they went up into the bush. They followed the tracks up into the bush, fired two or three shots and called out as loud as they could, but got no reply. They went on a mile farther and there they found a little dress all bloodstained and torn, the wolf tracks all around where the little girl had evidently been eaten by wolves. They could find no trace of the other child anywhere. There is no doubt that the little boy has been devoured also."

The report adds that the Indian guilty of the desertion was arrested subsequently, tried and sentenced to two years' imprisonment. The crime occurred in 1896, in a wilderness remote from civilization which accounts for the delay in the details becoming known and the bringing of the really Indian to justice.

and you can do no better in quality and price. When coming for your flour be sure and bring your order for all your other groceries as we have the largest and most select stock in the North West.

# Revillon Brothers, Limited.

### LOCAL.

The Russell Davis Stock Co., open a week's engagement in Robertson's Hall this evening.

The hockey club hold their annual ball in the rink on Thursday evening, April 27th.

The Fort Saskatchewan ferry had not been put in operation on Saturday.

Walter's ferry began running on Thursday last.

Friday and Saturday trains brought in large numbers of American immigrants.

Ald. Battell, of Moose Jaw, has been unseated on the ground of non-qualification.

During March 20, homestead entries were received at the Innisfail sub-agency.

Rev. J. W. Farrel, of Red Deer, preached in Grace Methodist Church yesterday morning and McDougal Church last evening.

The Epworth League of Grace Methodist Church are holding their usual monthly social this evening. Short program and refreshments.

The funeral of the late Mrs. McGee took place on Saturday morning at St. Joachim's church and was very largely attended.

At a meeting of the license commissioners held in Innisfail recently the application of Dunning & Tranter for a license for the Royal Hotel was not granted.

Wataskiwin Times: The automobile just arrived for E. W. Day of the Alberta Central Land Corporation, is of 30 horse power and named the "Rambler." When Mr. Day, who is out of town, returns, he no doubt will cause a sensation with his machine.

Moosejaw Signal: Mr. A. W. Woolf returned on Friday from a trip to the Alberta country. He expects a large influx of immigration to that point this spring, chiefly English and American people. He was favorably impressed with the country and expects to locate in the Red Deer district himself this spring. Griffith is manager of the rink.

The Bell Telephone Company last week commenced setting poles for their local lines in Lacombe. They expect to have the local exchange in working order early in May. As soon as the poles are set in Lacombe the company will immediately put work on the line to Bentley. It is also their intention to put a line in to Lamerton this season.

A farmer's meeting was held in Reid's hall, Ponoka, on Saturday. As the government objected to the name formerly adopted, it was changed to the Ponoka Farmer's Association. It was the unanimous wish of those present that articles of incorporation be proceeded with. As a step in this direction an executive committee was chosen, composed of Louis Fleming, W. N. Shafft and Geo. C. It was voted to levy an assessment of five per cent on all shares submitted for, to pay for incorporation and the expense connected therewith.

Mr. Robt. Cameron, switchman in the C. P. R. yards at Moose Jaw, had a narrow escape from a horrible death on Saturday afternoon last. While in discharge of his duty in front of the depot, he threw a switch and stepped back to give the signal to the engineer. He was just a step too near the main line, and was struck on the side by the end of the "bumper" of the locomotive of the incoming east bound passenger train, which was pulling in at the rate of about ten miles an hour. He was thrown about twenty feet and landed head first dangerously near a switch stand. He was in a semi-conscious condition and carried to the hospital room, and medical aid called. His mind remained unconscious and it was found that three ribs were broken. It is feared that he has also sustained internal injuries, but there is good reason to hope for his recovery.

Mr. Harold Nelson, an actor who may always be relied upon to give dramatic portrayals of merit, is returning to us with his latest production, "Paul Kauvar." This is one of the strongest plays ever written dealing with the thrilling incidents of the French Revolution. No one can fail to be interested in the plot or fail to sympathize with the hero or heroine, or await the denouement with bated breath.

The part Paul Kauvar, painter and patois, well suits Mr. Nelson, and in it he has made the success of his stage career. His Manager, Mr. C. P. Walker, has given him a very strong supporting company, and has also, without regard to expense, equipped the new production with effective scenery and costuming. A splendid performance may be expected when "Paul Kauvar" is produced here on the opening night of the engagement, April 19th. J. C.

## We Offer \$1,000

For a Disease Germ That Liquozone Can't Kill.

On every bottle of Liquozone we offer \$1,000 for a disease germ that it cannot kill. We do this to assure you that Liquozone does kill germs. And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity; a worth so great that, after testing the product for two years through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

#### Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas-turgic oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables;

and Liquozone—like an excess of oxygen—is deadly to vegetal matter. Liquozone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquozone, acting as a wonderful tonic, quickly restores a condition of perfect health.

Diseases which have resisted medicine for years yield at once to Liquozone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you more—wherever you are—can tell you of cures that were made by it.

#### Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma—Asthma  
Bronchitis—Bronchitis  
Cough—Cough

All diseases that begin with fever—indirect malady—all catarrh—all manner of diseases—all those that are caused by a nervous disease. Liquozone acts as a伟士利， accomplishing what no drugs can do.

#### 50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order to a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. & L.

CUT OUT THIS COUPON  
for this offer and mail it, fill in the blanks and mail it to The Liquozone Company, 55-56 Webster Ave., Chicago.

My disease is...  
I have never tried Liquozone, but if you will excuse me a few bottles free I will take it.

Give full address—write plainly.

Any physician or hospital not using Liquozone will be gladly supplied for a test.

## PERSONAL

W. McKay left for the Landing today. Judge and Mrs. Scott returned from Macleod on Saturday.

Mrs. W. Williamson and family came in from Ontario on Saturday. Father Leduc went to Calgary today.

Father Culver left this morning for British Columbia.

Ald. Chas. May returned last week from Ontario.

G. R. F. Kirkpatrick went south today.

Mrs. J. Nutshart and Mr. E. N. Butchart came in from Midway, Ont., on Saturday.

A. C. Fraser, Manager of the Merchants Bank, returned on Saturday from Vegreville.

A. T. Walker of the International Harvester Co. returned Saturday from Vegreville.

J. P. Minchinick, general agent for the Frost & Wood Co. for Alberta, is spending a few days in the city.

NEW COUNCIL ELECTED

Warwick, April 4th:-Townships 53 and 54, range 14 and Township 53 and 54 and range 13 west of 4 have been formed into a separate urban district.

On Saturday, April 1st, councillors were elected in three of these townships. In 52-53 at Brune Hill, Mr. J. E. Mahaffey was elected. In 54-14, at residence of D. McFarlane, Mr. Dan. McColman was elected, and in 54-13 Mr. Laird was elected. We have not been able to learn whether or no there was an election in 53-13. There are a good many Galileans in the latter-township. The council proposes to hold its first meeting in the Warwick school house on Saturday, April 8, at 2 p.m.

Mr. and Mrs. Ray of Vegreville spent Saturday, and Sunday in Warwick.

Last Sunday the Rev. Mr. Gould preached in our school house at 11 a.m. and the Rev. Mr. Argue at 3:30 p.m.

Death last fall and this spring destructive prairie fires have raged in this valley.

This afternoon a fire began near the Whiteford trail. There was no house near the fire and it seems to have begun from a lighted match thrown out by some careless traveller who had been lighting his pipe.

Fortunately the day was calm and an hour's vigorous work put out the fire. So much of the valley has been burned over that had this fire prevailed there would be little or no forage for the cattle in this vicinity.
